MOTIVES OF JOURNAL ARE NOW ONLY TOO PLAIN

Citizen's Editorial on Investigations Endorsed by Impartial Reader in Letter.

UNPROVEN CHARGES ARE HARMING NEW MEXICO

Citizen Thinks That Disgraceful Attempt to Ruin Republican Party by Attacking Leaders Should be Stopped.

The editorial in The Citizen last evening, in which the harm being done to New Mexico and to this city by the publication of unfounded rumors of graft and fraud by certain papers in an effort to disrupt the republican party was shown up, undoubtedly fitted the views of several Albuquerque people.

The Citizen today received several communications bearing upon this matter and the one published hereafter shows that the writer undoubtedly gave the matter serious thought. The letter may not perhaps be as complimentary to The Citizen as The Citizen would like but in the main it deals with one important matter to which all else is subsidiary--the good of New Mexico.

The Citizen therefore publishes this letter in full for the consideration of its readers and it does so without comment, bias or prejudice in the matter one way or the other. The Citizen believes that continued harm and no good can come from a continuous attempt to black guard every public official who dares to express his views in opposition to the views of the so-called reformers and The Citizen said just what it believed, last evening, when it expressed the hope that the investigation now under way would be made so thorough that it would either convict or acquit every man against whom newspaper charges have been made and thus put an end to this cry of fraud and graft.

The letter received by The Citizen is as follows:

Comments the Citizen.

To the Editor: As a public spirited citizen I wish to commend your editorial in Monday evening's Citizen in which you condemn the practice of wholesale attacks on New Mexico's public men in the newspapers. I refer particularly to the Albuquerque Morning Journal. I have been a reader of both Albuquerque papers for four or five years and when the Journal opened up its crusade for a change in Bernalillo county's government I was in hearty accord and I have followed the paper's course with interest and sympathy. When it went into territorial affairs and backed the Hagerman administration I was still inclined to think favorably of its policy, believing that Hagerman deserved support.

Disappointment to my friends. It has seemed to me, however, that the moment the Journal found that Hagerman's faction would have a hard fight in the legislature to secure any recognition, that the management of the paper lost its head like an excited school boy and that he never obtained his equilibrium since. Throughout the last legislative assembly the Journal was a disappointment to its friends and a disgrace to the territory and since that time it has become more and more rabid in its utterances until "biased" and "prejudiced" are weak words to describe its political attitude. It can no more be fair to any man who is a member of the opposing faction than it can keep from belittling Max Frost. Every reader of the Journal knows exactly what to expect in every morning's correspondence from Santa Fe. If those special dispatches are telegraphed, imagine the operators have long ago adopted a code for "gang" and "plunderband."

Has Not Made Good.

Like Hearst, the Journal has taken advantage of the fact that it is easy to secure the public ear with a cry of "graft." It is easy to excite sympathy from the people if you can make it appear that you are exposing their cause against injustice. I was one who believed so at the start. But in the light of later developments I cannot convince myself that the Journal has made good. The moment it secured sufficient influence it sent its publisher and city editor to Santa Fe and brought back the secretaryship of the bureau of immigration. I didn't like that in the face of what had been said in the Journal about this very "territorial graft." It reminded me too much of the preacher who closed his prayer one morning after a partially successful appeal to his congregation for church funds with the words, "Thank God, the fund for the payment of the minister's salary is safe, anyhow."

Nothing But Rumors.

I rather enjoy a newspaper fight if it is conducted on a fair basis but can the Journal call its methods fair? Only recently when the resignation of A. M. Bergere, district clerk at Santa Fe, was requested by Judge McBride the Journal spread this news broadcast in glaring headlines, and followed it up for several days with "reports" Mr. Bergere, etc., discreditable to Mr. Bergere. The truth is that no one outside of the government agents know why Mr. Bergere's resignation was asked, and the Journal has no acknowledged source. Was this inferred calumny fair? Such a thing might happen to any official and it afterward developed that he was innocent of anything other than a technical charge. Whether or not this be true of Mr. Bergere, I hold it

Secretary Taft, Home Loving Wanderer, Now Revelling in Vacation With Family

Secretary and Mrs. Taft at Their Summer Home, Murray Bay, Canada.

TAFT WORKS HARD ON HIS SUMMER VACATION

Big War Chief Enjoys Recreation in Cool Air of Canada.

SPENDS HOURS DAILY WITH HIS SECRETARY

Murray Bay, Canada, August 6.--This is the place where Secretary Taft is spending his vacation, and a joyous vacation it is, though a strenuous one. With him are Mrs. Taft, their only daughter, Miss Helen, Robert, the oldest son and child, who is a Yale student in winter, and Charlie, who is "a mere childerene." Here, also, are the secretary's brothers, Charles P. and Henry Taft, of Cincinnati, with their wives, and not far away is the summer home of Justice Harlan, of the United States supreme court.

Such an outing as this with his family is a great treat to a homesick man like "Bill" Taft, who has traveled 100,000 miles since he entered the cabinet, and who will start on another trip to the Philippines in a few weeks, after his vacation is over. It is a rare treat to see the big secretary bobbing along toward the golf links to meet one of his brothers or Judge Harlan in a friendly match.

The Murray Bay links are laid out on the side of a thousand hills. There are 18 holes and these holes are reached by veritable mountain climbing, jumping ditches, traveling along dusty and rough roads and by other difficult routes over a rocky way. It takes a good three hours to get around them, and the secretary does it with a score of 95.

Ideal Summer Home.

The Taft summer home, outside of Murray Bay, greatly resembles a Filipino bungalow, and is fitted throughout with Filipino matting, scarves, presentation flags, etc., and there is even a Filipino servant, Mantic, who insisted on following the secretary to the United States.

In the town itself, the little old French Canadian hill town, M'sieu Taft is the one important figure. Prominent Americans of all sorts come and go during the summer, but he is the one unfading figure of general interest.

Works With Secretary.

Taft works during the summer from seven in the morning until eight or half-past eight to his secretary's office, which is a department matter which come by the night mail.

Then he has breakfast. After breakfast, rain or shine, he takes his golf clubs and goes to the links to put in a full morning.

At lunch time he turns up bright and smiling, eats a bite and goes back to his secretary and his war department again for several hours.

Late in the afternoon he puts thoughts of work aside and he and Mrs. Taft go out to the summer house, nothing more than a covered enclosure with some rough seats, to read and talk.

Late in the dusk of the evening he and the children play together around the tennis court or on the lawn. It is a pleasant sight, for so far as games are concerned Taft is like Peter Pan--he has never grown up.

WARSHIPS BOMBARDING CASA BLANCA REBELS

French Cruiser Galilee Aided by Gunboats Puts Arabs to Route There.

FORT SILENCED BY SHIPS' BIG GUNS

Bombardment Will Be Continued at Points Along Coast--Big Reinforcements Join Moorish Troops but White Soldiers are Enroute.

Tangier, August 6.--The French cruiser Galilee was bombarding the Moorish quarter of Casa Blanca and the neighborhood of that city when the last steamer, which arrived here today, left that port.

The Kabyles attacked Casa Blanca and the Moorish authorities applied to the commander of the Galilee for assistance. He thereupon landed sixty men and the Spanish cruiser landed forty. This landing party was fired upon by the Kabyles and seven Frenchmen, including one officer, were wounded.

The combined French and Spanish force thereupon cleared the city of the hostile tribesmen, guards were placed about the foreign consulates, and then the Galilee opened fire with her big guns upon the rebels.

Three Warships Participate.

London, August 6.--A special from Tangier today, describing the bombardment of Casa Blanca, say the French cruiser Du Chayla and the Spanish gunboat Don Alvaro de Bazan participated with the Galilee in the bombardment of the villages surrounding Casa Blanca, which were destroyed by the fire of the warships.

During the bombardment large reinforcements of tribesmen came up and many of them were killed or wounded.

Silenced Battery.

The Casa Blanca battery joined in firing upon the foreign warships, whereupon the guns of the French and Spanish cruisers were turned upon the battery, which soon caused the Moorish commander to send a messenger to the French admiral requesting his pardon.

This was refused, and the admiral sent a peremptory order to the Moorish commander to surrender himself to the French consul.

150 Moors Killed.

According to another special from Tangier today, 150 Moors are said to have been killed in the towns, villages and hamlets around Casa Blanca during the bombardment by the foreign warships. The rebels were reduced to ruins by the warships' shells.

German Demand Protection.

Berlin, August 6.--A dispatch from Tangier today says that the German charge d'affaires at Tangier has called the attention of the French charge d'affaires to the dangerous position of foreigners at Casa Blanca on the west coast of Morocco and that the French official has directed the French cruiser to proceed to Maagan. Many Germans live there outside the city gates.

On War Footing.

Madrid, Spain, August 6.--The Spanish government has ordered to be placed on a war footing with a view to sending troops from there to Morocco.

Revocation of the railroad's charter is generally believed, will be withdrawn. This revocation placed the railroad in the position of an outlaw and gave the state an opportunity to cause wholesale arrests of its employees for conducting trains and business inside the state without proper authority.

BROKER KILLS HIMSELF OVER FINANCIAL TROUBLES

Suspended From Exchange, He Brooded Over His Difficulties.

New York, August 6.--William S. Alley, a member of the New York stock exchange, committed suicide by shooting last night. He has been a member of the exchange since 1872, but has been under suspension from the exchange for almost a year, and since then had confined his operations to the curb market.

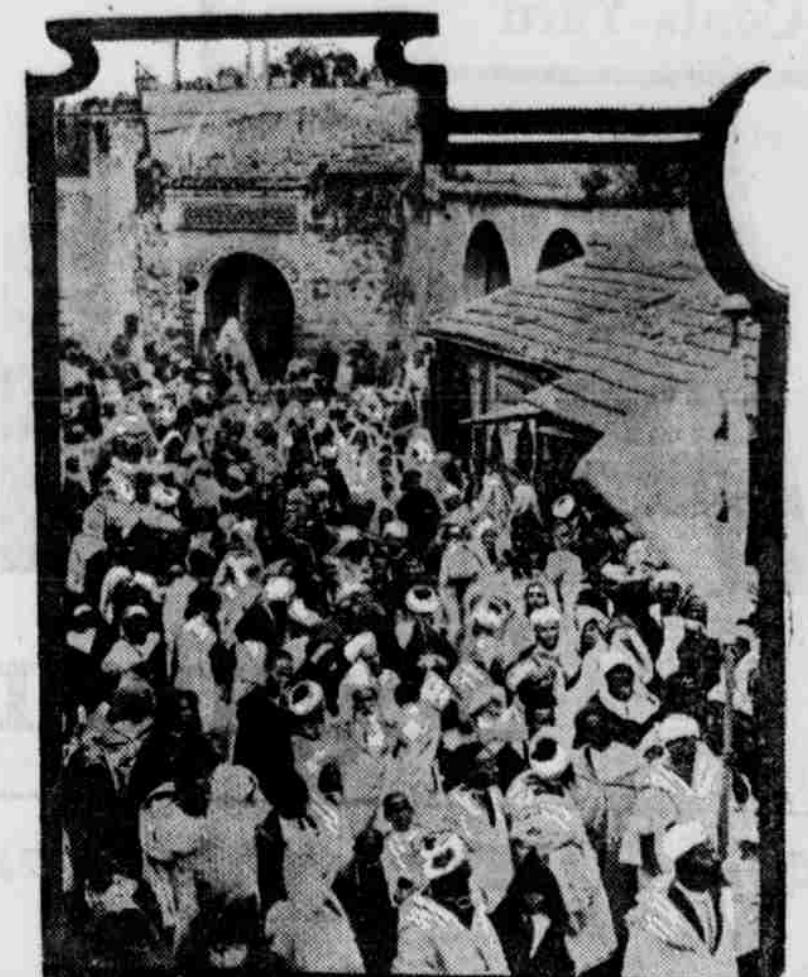

He left no word explaining his act, but his friends believe he was despondent over financial troubles. He was 55 years of age.

Alley was expelled for alleged unfair dealings with other members of the board, though he has always conducted his business with integrity. Since his expulsion, he has made some notable curbstone deals and has been often a factor in the market, but he has been depressed over his affairs, and, while accounted a wealthy man, not involved to any extent. It is believed financial troubles worried him to the point of suicide.

Root's Oldest Son to Wed.

New York, August 6.--Announcement is made of the engagement of Ethel Root, Jr., oldest son of Elihu Root, secretary of state, and Miss Alice Livingston Stryker, the eldest daughter of President Woolsey Stryker, of Hamilton college. It is only a few days since the engagement of the daughter of Secretary Root to U. S. Grant, son of General Frederick Dent Grant, was made public.

SIX KILLED AND MANY MORE INJURED IN A COLLISION

Freight Car Jumps Onto Main Line in Front of Passenger.

COACHES SIDESWIPED BY PECULIAR ACCIDENT

Pittsburg, Pa., August 6.--The Titusville express, southbound, on the Pennsylvania railroad, was wrecked near Kelly station, 10 miles from Kittanning, Pa., today, and at least six persons were killed, and about eighteen injured.

Among the identified dead are: MRS. ALONZO HUGH, L. B. IRWIN, engineer of the passenger train; C. CHRISTLER, Titusville; M. RAFFERTY, Kittanning.

The train was running at high speed and the accident occurred on a sharp curve. In some manner a car that former part of a north-bound freight train had broken away, landed some distance from the northbound track and projecting over the southbound track. The express as it rounded the curve was side swiped by this car, which derailed the passenger engine and wrecked four cars.

CURRY WILL GET A ROUSING WELCOME

Big Delegation From Albuquerque Will Leave Here Thursday Morning at 7 O'clock.

INAUGURATION AT 2 P. M. IN CAPITOL BUILDING

Prominent Men With Families Will Attend From All Over New Mexico--Four Bands, Flags, Bunting and Flowers.

The Program.

Owing to the fact that the new governor, George Curry, will not take the oath of office until 2 o'clock Thursday afternoon, as a result of a change in arrangements, the Albuquerque delegation will not leave here until Thursday morning.

The delegation from this city will go to Santa Fe on passenger train number 10, leaving here at 7 a. m. Thursday morning, August 8.

The local committee has arranged to have special cars attached to this train with their trip with them, be just as planned with the exception that the long night trip will be eliminated.

Every comfort and every accommodation possible to provide will be arranged for by the local committee.

A large number of people have asked for accommodations--so many in fact, that the committee at first feared it could not secure the cars necessary. Late this afternoon, the Santa Fe officials announced that the cars could be secured and they will be attached to passenger train number 10.

Those desiring to return to Albuquerque Thursday evening can do so on passenger train number 7, which reaches here at 7:45 p. m., or passenger train number 7, which arrives in this city at 10:55 p. m. Those who wish to remain in Santa Fe for the reception and ball will be able to leave Santa Fe for Albuquerque at 8 o'clock the following morning, arriving home about noon.

If desired, those who stay for the ball can wait until the next evening to return at their leisure. The change in the hour for administering the oath of office, before the inauguration, greatly simplifies the matter of a day-light trip to Santa Fe in the cool of the morning and a return during the evening, reaching this city, if desired before dark.

The list of those who will join the Albuquerque delegation is growing rapidly. If you desire to go, you should phone your name and address to the office of The Citizen early tomorrow morning. PHONE NO. 15.

Accommodations will be arranged for all those desiring to go up to the last minute possible.

The Santa Fe has made a rate of one half fare for the round trip, which amounts to something less than four dollars.

At Santa Fe the hotels and restaurants say they will serve all the tables possible and will make every effort to accommodate all the people who visit the city.

The trip as now arranged is particularly convenient for the ladies who desire to go, since they will be enabled to go and return practically in one day and will have a section of the train for their accommodation. The inauguration of the new governor as stated before, will be the most brilliant affair of the kind ever witnessed in New Mexico.

Chief Justice William J. Mills will administer the oath of office. All of the supreme court justices will be present with the exception of Justice William H. Pope, who is absent in Atlanta, Georgia, and will be unable to reach Santa Fe in time to attend.

Besides territorial officials, staff and national guard officers, there will be practically all of the leading men in New Mexico public life and many of them will be accompanied by their friends.

There will be the famous Mexican band from Chihuahua, the American Lumber Company band of this city, the Plaza band of Santa Fe and several other musical organizations.

Those who remain for the big ball in the evening, will witness the social event of the season at the Capital City.

It is said there will be some rare creations in gowns and the ball room will be profusely decorated, with flags, flowers and bunting. The lobby and stairways of the hotel will also be handsomely decorated and upon the landing on the second floor the new governor will head his first public reception and will meet all who call to pay their respects.

It is estimated that several thousand people will fill the Capital City upon this occasion and return practically to its utmost to accommodate all who come.

If you intend to go remember--that the Albuquerque delegation will leave on passenger train No. 10 at 7 o'clock Thursday morning and if you desire accommodations with this delegation in private cars, send your name and address to The Citizen office or call up telephone No. 15 early tomorrow morning.
